

# A National Teach-In

# on the WAR ON IRAQ

Can Saddam be disarmed without war? What role can nonviolence play in bringing justice and democracy to the region? What are the real reasons for the rush to war?

Will war lessen—or increase—the threat of terrorism in this country? Are there alternatives to war?

Across the country, students will explore the complex issues surrounding the planned war on Iraq and engage in a dialogue about creative, nonviolent alternatives to war.
